DIGITAL PRODUCT STACK AI PROMPT

The Fastest Way to Build Your Digital Product Empire!

Use this AI prompt to generate 10 small impulse purchase products in your niche.

PROMPT (Copy & Paste)

Generate 10 small digital product ideas for [add niche] priced between $9-$27.
Focus on templates, scripts, guides, and checklists that solve specific problems people actively search for on Pinterest and Google.

For each product idea, include:
1. Product name
2. Specific problem it solves
3. Primary purchasing trigger (prioritize "make money" and "save money" — these convert best and command higher prices. Other options: save time, move toward happiness, move away from pain, raise social status)
4. Why someone would buy this right now vs. figuring it out themselves
5. One-sentence marketing hook

Keep in mind: These products need to target searchable problems — things people are already looking for solutions to, not ideas they'd need to be convinced they need.
