2 AI PROMPTS

TRANSFORMATIONAL PRODUCT AI PROMPTS

The Fastest Way to Build Your Digital Product Empire!

Use these two AI prompts to turn your expertise into a specific, sellable digital product, and then design it as a fill-in-the-blank system your customer can finish in 20 minutes.

Prompt 1: Transformation Prompt

"I have expertise in [YOUR NICHE]. My audience struggles with [THEIR PROBLEM]. Give me 5 digital product ideas that promise a specific transformation — not just information.
Each one should include:
1. A product name that states the result and timeframe.
2. Where the customer starts (their pain point).
3. Where they end up (the specific outcome).
4. Why someone would pay $27-47 for this instead of just Googling it or using AI.
Make them specific, achievable, and something I could create in one afternoon."

Prompt 2: System Builder Prompt

I'm creating a digital product called [YOUR PRODUCT NAME]. Instead of writing an ebook, help me design it as a fill-in-the-blank system. Include:
1. What the customer fills in about their specific situation (3-5 inputs).
2. What the system gives them back (the personalized output).
3. The step-by-step framework — what does each page or section do?
4. How the customer gets to the promised result without reading more than 2 pages.
Keep it simple enough that I can build it in a Google Doc or Canva template
